FIRE PREVENTION WEEK

Thank you to the Norfolk Volunteer Fire Department for visiting Botelle on Tuesday, 10/7. Students learned about fire prevention, practiced skills in case there is a fire in their homes and saw the fire truck and all the equipment used to extinguish fires. Students also learned about safety with lithium ion batteries - which most of our electronic devices use. Families and students can find more information about fire safety at this [website](#).

INVASIVE SPECIES REMOVAL

Join Norfolk's Conservation Commission in removing invasive plants on Botelle School grounds on Sunday, October 19th at 1:00. Norfolk community member, Phil Lovett, generously donated a full day with his equipment removing the worst infestations. We will be tackling the rest. No experience required.

We will train you to identify the plants and demonstrate how to remove them. Bring any tools you may have such as weed wrenches, shovels or trowels, clippers and loppers. If you have any special equipment or experience, please let us know! RSVP at nccinvasives@gmail.com
